

Object Oriented Programming (with JAVA) UNIT-5 Question Bank

by Dr. Partha Roy, Professor, BIT, Durg

1. Explain about Collections Framework.
2. Explain with code examples any 4 member methods of Collection.
3. What is the utility of ArrayList in collections framework? WAP to implement ArrayList class methods.
4. What is the utility of LinkedList in collections framework? WAP to implement LinkedList class methods.
5. What is the utility of Vector in collections framework? WAP to implement Vector class methods.
6. What is the utility of HashSet in collections framework? WAP to implement HashSet class methods.
7. What is the utility of TreeSet in collections framework? WAP to implement TreeSet class methods.
8. What is the utility of HashMap in collections framework? WAP to implement HashMap class methods.
9. What is the utility of TreeMap in collections framework? WAP to implement TreeMap class methods.
10. What is the utility of Hashtable in collections framework? WAP to implement Hashtable class methods.
11. Explain about Generics in Java.
12. What is the utility of Generic class? WAP to implement Generic class.
13. What is the utility of Generic method? WAP to implement Generic method.
14. Explain about JAR in Java.
15. What is the utility of JAR files? Demonstrate with commands how to create a JAR file.
16. Demonstrate with commands used to create an executable JAR file.
